JANITORIAL EQUIPMENT REPAIR TECHNICIAN

A Janitorial Equipment Repair Technician is in charge of performing ongoing facility maintenance and repairs on equipment. The Technician is responsible for keeping the janitorial equipment operating and repairing any problems when they are discovered before they have a chance to worsen. Duties include fixing machinery and inspecting equipment to confirm compliance, safety standards and ensuring equipment is operational.

Responsibilities:

A Maintenance Equipment Technician will usually be required to perform a wide range of repair tasks around a facility. Some other tasks a Maintenance Equipment Technician may be called upon to do include:

- Repairing faulty janitorial equipment to ensure that all equipment is functioning properly
- Performing routine maintenance on equipment, including cleaning and sanitizing equipment
- Conducting periodic quality checks on equipment to ensure everything is up to standard
- Fixing potential safety hazards to avoid injuries
- Attention to detail to ensure that all jobs are completed in an exemplary manner and any potential hazards or warning signs of problems are not overlooked

Requirements:

- High school diploma, GED, or suitable equivalent preferred.
- Physical stamina and ability to move and lift at least 50 pounds
- Interpersonal skills to interact with employees in a pleasant manner
